# Why choose AccuMax?

It's simple, we are committed to meeting and exceeding your needs when it comes to the comfort and quality of the air in your home or business.

You can trust our team of expert technicians to give you honest advice, provide accurate estimates for work, and get the job done right the first time.

Emergency services at night, on weekends and holidays are available.

## Company History

AccuMax Inc. was founded in 1990 by Joseph Baloun. In the beginning, our primary focus was on appliances including washers, dryers, dishwashers, refrigerators, hot water heaters, ice makers, disposals, and ovens. Throughout the years AccuMax Inc. also started servicing commercial properties and repairing coin operated laundry equipment.

In 1991 Joseph's son graduated with an associates degree in HVAC and AccuMax Inc. moved into the heating, ventilation and air-conditioning industry. This expanded the AccuMax services to installation and maintenance on all makes and models of furnaces and air-conditioning equipment as well as duct cleaning services.

Recently, Joseph has retired and we now fully focus on HVAC. We no longer service any appliances or do duct cleaning.

We have become a one-stop repair shop offering great personalized service and pricing. We can handle any job from simple residential installs to new construction or commercial rooftop equipment. Feel free to call us at any time at (630) 800-1598, you will always speak to a live person and you can always reach the owner directly.

Our philosophy is, treat the customer the way you'd like to be treated. This is something we have never forgotten and always strive to maintain.

# Financing

We offer several ways for you to get the comfort you need now, and pay later. Plus, by taking advantage of financing, you won't use up your existing funding sources, like a home equity line of credit, other credit card or bank account. They will still be available when you need them.

## Current Financing Specials:

### Option 1

180 Days, no payments, no interest (balance at 120 months at 9.99%)

### Option 2

90 Days, no payments, no interest (balance at 60 months at 6.99%)

### Option 3

18 Months no interest (small minimum monthly payments)

**Limited time offer, NO pre-payment penalties!**

## Service Finance Co.

- Several options for financing your new product or service with approved credit. Invest in your home's comfort or respond to an unexpected heating and cooling need without breaking your budget.
- Convenient monthly payments
- Special financing terms & easy online account management

## ComEd Financing

- Energy Efficiency Loans for Homeowners
- Financing is available to eligible ComEd customers to cover the cost of energy efficiency equipment and improvements in their homes. Installments on the loan are conveniently applied to your monthly ComEd bills.

## Nicor Financing

- Energy Efficiency Loans for Homeowners
- Financing is available to eligible Nicor customers to cover the cost of energy efficiency equipment and improvements in their homes. Installments on the loan are conveniently applied to your monthly Nicor bills.

# Gas Furnaces

Engineered to deliver maximum energy savings and exceptional comfort.

Inside every Armstrong Air gas furnace, you'll find a high level of technology and craftsmanship, backed by a Lifetime Limited Warranty on the heat exchanger.\*

## 80% AFUE 1-Stage, Constant Torque

\$             
BEST PRICE

### A801E Gas Furnace

*Reliable single-stage furnaces deliver year-after-year performance.*

The constant-torque motor provides a steady flow of air, maintaining a more consistent airflow than a single-speed PSC motor and helping eliminate hot or cold spots for more even temperatures throughout your home. When you set your thermostat to "Fan On," the furnace circulates air at low speed, which uses less energy and improves air filtration. The motor also operates with greater efficiency and less noise.

#### FEATURES:

80% AFUE
EHX Technology
Quiet Combustion Technology
One-Stage Gas Valve
<b>Constant-Torque Blower Motor</b>
Lifetime Warranty on Heat Exchanger*

## 80% AFUE 2-Stage, Variable Speed

\$             
BEST PRICE

### A802V Gas Furnace

*A variable-speed, two-stage gas furnace built to exacting standards.*

Longer, gentler heat cycles run at low capacity during mild weather to save money and provide maximum control. It automatically switches to full capacity to keep you warm on colder days. A variable-speed blower modifies airspeed to create a more comfortable environment without hot or cold spots and automatically provides dehumidification to enhance comfort levels. Pair the A802V with a Pro Series™ outdoor unit and the Comfort Sync™ thermostat for maximum control.

#### FEATURES:

80% AFUE
EHX Technology
Quiet Combustion Technology
Two-Stage Gas Valve
<b>Variable-Speed Blower Motor</b>

<b>Self-Diagnosing Control Board</b>
<b>Comfort Sync Thermostat Enabled</b>
<b>Comfort Sync Zoning</b>

# Filter Media

Most people don't realize how important the type and size of filter used in their system really matters. Typical 1" filters do not have enough filtering material to properly protect your HVAC equipment over time. A filter with more surface area can hold more particulate, while still providing proper air flow over a longer period.

## Media Upgrade

### MODEL ?

*A commitment to exceeding expectations*

Some body copy would go here explaining what this photo is and how it fits in to the package?

# Thermostats

Smart thermostats do more than manage your home's heating and air conditioning. These app-enabled smart home devices make it possible to adjust your thermostat from your phone whether you're on the couch, at the grocery store or on vacation -- anywhere your phone or mobile device is connected to a Wi-Fi or cellular network. Many smart thermostats also work with Alexa, Google Assistant and Siri now too, giving you yet another way to adjust your settings with remote access to your smart home systems.

## Standard Non-Connected

\$ \_\_\_\_\_

## Why Choose Aprilaire

Aprilaire has been there since the beginning by introducing the first whole-home humidifier in 1954. In the nearly six decades since, we have continued to focus on creating whole-home humidification solutions focused on improving the health of your home's air. Your humidifier will also help preserve belongings, achieve total comfort, and lower energy costs.

Designed and manufactured in the United States, each humidifier is built to last and comes equipped with a 5-year warranty.

Each whole-home humidifier also comes outfitted with digital controls to let you easily remedy your dry indoor air.

## Humidity for Health

Reduce the incidence of respiratory infections and symptoms related to allergies and asthma by minimizing the formation of bacteria and viruses, fungi, and dust mites.

## Humidity for Comfort

Whether your home is in a dry region of the country, or in an area with seasonal dryness, maintaining the right level of humidity can make all the difference in how comfortable you feel in your home.

## Humidity for Preservation

Help preserve the natural beauty of wood floors, cabinetry, furnishings and anything else in your home susceptible to warping, cracking, or other permanent damage due to dry air.

**Never worry about an HVAC problem, even on nights, weekends and holidays.**

# Warranty Information

We stand by our products and service. Every product we install has at minimum a manufacturers warranty. If you have one of our Maintenance Plans, these warranties are often extended for certain products. We guarantee our installation and services as well. We want you to be as satisfied as possible. You will be provided specific warranty information for each product we install. Something like this, I'm assuming there's no way you can list all the warranties for all your products, but this section is meant to give some piece of mind to your customers, in general terms. Please advise.

## Your specific warranties

### Manufacturer Warranties

(Warranties below are provided if checked)

- ☐ Warranty on Air Conditioner Compressor \_\_\_\_\_years
- ☐ Warranty on Furnace Heat Exchanger \_\_\_\_\_years
- ☐ Warranty on Furnace Parts \_\_\_\_\_years
- ☐ Warranty on Air Conditioner Parts \_\_\_\_\_years
- ☐ Warranty on Labor with Gold Plan \_\_\_\_\_years

## Quality Assurance Guarantees

- ☐ 24/7, 365 days a year emergency services
- ☐ 1 year no-risk 100% satisfaction
- ☐ 5 year performance comfort guarantee
- ☐ No lemons
- ☐ Price protection (for how long?)
- ☐ ARI Certified (what does this mean?)

## Armstrong Air systems are covered by our "NO LEMON" Guarantee.

This 10-year limited warranty provides a unit replacement in the event that a major component (the compressor or heat exchanger) should fail during the warranty period. This also includes a 2-Year labor concession.

# Back Cover
